ENDLESS POSSIBILITIES

ON MORE SUSTAINABLE GIFTING

Introduction

Welcome to our 2024 inspirational gifting catalogue showcasing our more sustainable collection.

This catalogue is designed with your needs in mind. Helping you and your customers to make a more sustainable choice in recycled and certified products. All selected with care: Products that last, and people love to use, with many customisation options. A collection perfectly suited to put the end customer's brand in the spotlight.

The way forward is phasing out all virgin fossil-based plastics by 2030, that's why we focus on products made from recycled and innovative materials. Discover clothing made from recycled polyester, power banks made from recycled plastic and much more!

Supported by mood scenes, created with our Mood Scene Generator, GIFs, videos, and mood imagery. As we empower selling, these resources are available and ready for you to use in your marketing communications. The possibilities are endless...

INNOVATIVE MATERIALS

Innovative materials in products refer to the use of alternative, more sustainable resources such as sugar cane, corn plastic, crush paper, felt, cork and stone, instead of using traditional materials such as plastic or paper. Our Americano collection, for example, is made from sugar cane plastic. Discover two new additions to our notebook collection: Viviana and Liliana. The Viviana notebook is made from recycled felt and cork. The Liliana notebook is made from sugar cane and features a natural look with a nice pop of colour.

MADE FROM SUGAR CANE

This renewable source absorbs carbon dioxide whilst growing and is a by-product of the sugar industry. The use of sugar cane means less oil is used in the manufacture of each Americano.

UNDYED &

AWARE™

AWARE™ – DARINGLY SIMPLE TRACEABILITY

How can we build trust in sustainability claims? By ensuring trusted traceability for every step of the supply chain with Aware™ technology.

Starting from the very origin of an item's fabric, this innovative solution brings un-precedented transparency to the supply chain. By embedding a physical tracer into sustainable raw materials. This tracer can be authenticated with the Aware™ hand scanner from every tier of the supply chain anywhere, anytime. The blockchain platform securely records production information, creating a digital replica of the material's journey, ensuring accurate data for recycling processes. Digital tokens, the Aware™ Crypto TCs™, validate every step, upholding the integrity of the supply chain information. The user-friendly Virtual ID acts as a digital product passport for consumers and simplifies making informed choices.

UNDYED

These products are made from 'Undyed' fabric. No dyes, water or chemicals are needed in this innovative process, which means it has less negative impact on our planet. Starting with textile waste from manufacturers and traders, the colour of the waste dictates the final hue. After manual sorting and quality checks, the waste is recycled into cotton fiber without chemicals. Blended with other recycled fibers, like polyester, viscose, acrylic, EcoVera™, or Tencel™, the resulting yarn is strong and high-quality. Through careful processing, the material is formed and spun into the final, more sustainable coloured yarn.

ocean bottle

NEW

Buy 1 Rescue 1000 with Ocean Bottle.

Every Ocean Bottle product funds the collection of ocean-bound plastic. With the sale of each Ocean Bottle, we fund the collection of 11.368 kg of ocean-bound plastic, equivalent to the weight of 1,000 plastic bottles.

We work with plastic collection partners to collect plastic on a global scale, in areas where plastic pollution is worse. We collect all types of plastic and ensure it is recovered and reprocessed in as efficient and socially beneficial a way as possible.

PREVENTED OCEAN PLASTIC

H2O bottles made from Prevented Ocean Plastic (POP)

By recycling plastic waste, POP contributes to a more sustainable and circular economy, reducing the reliance on virgin plastic production and helping protect marine ecosystems. An initiative aimed at tackling the global issue of ocean pollution, by preventing plastic waste from entering our oceans.

The collected plastic is sorted based on its type and quality, then undergoes thorough cleaning to remove any impurities and contaminants and is processed into raw material, such as pellets or flakes.

POP collaborates with fragile communities, providing employment and income-generating opportunities through involvement in the collection, sorting, or recycling process.

To enhance transparency and accountability, POP implements QR codes, enabling consumers to trace the material's origin and its journey through the recycling process.

MEPAL

LONGEVITY

Longevity in a product means lasting quality, durability and lasting value. In our collection, you will find products that have been carefully crafted to withstand the rigours of daily use, ensuring they remain reliable and functional over time. Mepal products are an example of this with their sturdy design and the availability of replaceable parts, allowing you to extend their lifespan even further by simply replacing worn or lost parts. Similarly, our CamelBak water bottles come with the Got Your Bak™ Lifetime Warranty, a testament to their superior craftsmanship and durability, which covers manufacturing defects for the lifetime of the product. Choose longevity and experience the benefits of products designed to serve you well into the future.

RECYCLED COLLECTION

RECYCLED COLLECTION

Welcome to our recycled collection, where sustainability meets innovation across a wide range of categories. A selection of recycled products where style, function and more sustainable choice of materials go hand in hand.

Like clothing crafted from GRS certified recycled materials, such as our Kai unisex lightweight circular jacket. Stylish and functional stationery & writing essentials like the Lorena ballpoint pen made from recycled plastic and the Viviana notebook made from recycled felt and cork. Bestselling products, like the Pep power bank, now available as a Recycled Classic made from recycled aluminium.

All products in our collection are selected with care, designed to last, and loved by its users. With many branding options the possibilities are endless.

CERTIFICATIONS

Certified by Control Union
CU 1019665

Global Recycled Standard (GRS)

The objective of GRS is to trace, through a chain of custody, recycled materials in products, ensuring transparency and credibility in sustainability claims. GRS certified products are made from verified recycled materials, with a traceable supply chain from the original source. To be GRS certified a product must contain at least 50% recycled materials. Chain of Custody The chain of custody system ensures every stage of production (including branding) is documented and audited for transparency. Third-party certifiers verify the chain of custody every year, confirming that recycled materials are properly tracked. The end-user can have confidence in the authenticity of GRS labeled products.

Certified by Control Union
CU 1019665

Recycled Claim Standard (RCS)

RCS certified products are made from verified recycled materials, with a traceable supply chain from the original source. To be RCS certified a product must contain at least 5% recycled materials. The chain of custody system ensures every stage of production (excluding branding) is documented and audited for transparency. Third-party certifiers verify the chain of custody every year, confirming that recycled materials are properly tracked. The end-user can have confidence in the authenticity of RCS labeled products.

CLOTHING

CLOTHING

Discover a selection of our recycled clothing collection, selected with care especially for you. Find the perfect style for your customers, from jackets and bodywarmers to t-shirts and caps. For example, discover our Elevate Kai circular jacket made from GRS recycled nylon, the Elevate Galena full zip sweater made from a blend of recycled cotton and recycled polyester with an Aware™ tracer, which ensures trusted traceability for every step of the supply chain, and the trendy Roly Tamil sports polo made from 50% recycled polyester. Branded with your logo, it's the perfect way to promote your brand.

DESK-MATE® & STICKY-MATE® PRODUCTS

A range of recycled paper products, designed to meet your everyday needs, including sticky notes, note pads and desk pads, all made in the UK.

- Sticky Notes: Ideal for quick reminders and notes, our recycled sticky notes are available in various shapes and sizes. Whether you're organising your thoughts or marking important pages, these sticky notes are a must-have for any desk.

- Note Pads: Our recycled note pads offer the perfect balance of style and functionality. Featuring full-colour prints on each sheet, they provide an eye-catching canvas for your ideas, sketches, and to-do lists.

- Desk Pads: Stay organised and efficient with our recycled desk pads, which combine ample writing space with stunning full-colour designs. These desk essentials not only keep your workspace tidy but also add a splash of creativity to your daily routine.

Choose a more sustainable option with recycled paper products. With full-colour prints on every sheet and a range of shapes and sizes, our collection is tailored to bring a touch of brilliance and organisation to your day. Choose quality, choose sustainability, choose our UK-made recycled paper products.

SCX

INNOVATIVE
DESIGN

EcoNotebooks

MADE IN EUROPE

The EcoNotebooks from SCX.design are a versatile and sustainable writing solution, thanks to its water-resistant and tear-proof paper, making it infinitely reusable. These innovative notebooks come with 48 reusable pages (24 sheets) of 100% biodegradable paper, perfect for environmentally conscious note-takers. Use the included pen to jot down your notes and choose from three convenient erasing options: the pen's eraser for small corrections, a cleaning wipe, or even a hair dryer for larger erasures. Made in France, this notebook is available in standard and premium, with the option for full-colour printing on both the front and back, or with a PU leather cover combining functionality with style.

130047 | **ROSS GRS RPET TOILETRY BAG 1.5L** | GRS certified recycled polyester | 20.5 x 7.5 x 13 cm | 1.22 kg CO_2e

The Ross travel accessories collection is made from GRS-certified recycled polyester.
The chain of custody system ensures every stage of production (including branding) is documented and audited for transparency.
Manufacturers must maintain records of the recycled inputs used and their sources.
GRS certified products are made from verified recycled materials, with a traceable supply chain from the original source.
To be GRS certified a product must contain at least 50% recycled materials.
Third-party certifiers verify the chain of custody every year, confirming that recycled materials are properly tracked. The end-user can have confidence in the authenticity of GRS-labeled products.

GOTS, FSC® AND BCI CERTIFIED PRODUCTS

GOTS, FSC® AND BCI CERTIFIED PRODUCTS

Alongside our collection of products made from recycled materials, we also offer other certified products that meet the highest standards of quality and ethics. Our selection includes:

- **GOTS certified products, ensuring organic and responsibly produced products.**
- **FSC® certified products, guaranteeing materials sourced from responsibly managed forests.**
- **BCI certified products, promoting better standards in cotton farming.**

Explore a selection of our other certified products in this chapter.

FOREST STEWARDSHIP COUNCIL (FSC®)

FSC® certification ensures that the paper or wood product comes from responsibly managed forests, reducing deforestation and promoting sustainable practices. Choosing FSC® certified products support socially responsible practices, including fair treatment of workers, contributing to global efforts to combat climate change and environmental degradation. It includes a full certified chain of custody, meaning the entire supply chain from forest to end product is monitored and certified, ensuring transparency and the product's traceability. This certification helps protect biodiversity and the habitats of endangered species by encouraging conservation efforts within certified forests globally.

GLOBAL ORGANIC TEXTILE STANDARD (GOTS)

GOTS aims to ensure organic integrity, responsible production, fair labor conditions, reduced environmental impact, and consumer trust in the textile industry. GOTS requires products to contain at least 70% certified organic fibres and must meet strict organic and social standards. Approved products bear the GOTS label, assuring customers of their organic and ethical qualities. By choosing GOTS-certified products, end-users can make conscious choices for a cleaner planet and better working conditions in the textile industry.

BETTER COTTON INITIATIVE (BCI)

BCI is a global non-profit organisation that aims to make cotton production more sustainable and environmentally friendly. BCI works with cotton farmers around the world to promote better farming practices that reduce the environmental impact of cotton cultivation. It encourages the use of less water and harmful chemicals, as well as the preservation of biodiversity in cotton fields. BCI provides training and support to farmers, helping them improve their livelihoods and social conditions while reducing the negative effects of cotton production on communities.
