

# SKAGERAK OUTDOOR 2016

**SKAGERAK**  
BY TRIP TRAP

REGATTA SERIES designed by Hans Thyge & Co.

Changing your name is not something you do every day. Particularly not if the name you are born with is beautiful as well as known by many, and is renowned with a number of good associations and stories. Even so, we have chosen that Trip Trap will be called Skagerak from now on, as this is the name by which we are known among our international work relations, customers, and friends. We have had both names for a number of years, but now we feel that the time has come for simplification, for 'less is more', as you say.

So, we would like to welcome you to Skagerak. The name Skagerak brings together a lot of the values that mean very much to us and fit the world that surrounds us. A world that, like the sea whose name we share, is always in motion. Like the world, we move in new directions day by day, and seize the waves of possibilities and positive surprises that emerge on the way towards our goal of creating the best design for our homes in an internationally intelligible and familiar idiom.

However, the basic values remain unchanged, and we in Skagerak will continue doing a lot of things the way we have always done them. With our Nordic roots as our basis, we will still aim at creating design that lasts for more than a lifetime. Design that tickles your senses, arouses your curiosity, and is produced with a great responsibility for the origins of the materials as well as those colleagues around the world that produce them.

With all this, Skagerak bids the new year welcome. A year where we, as in all the previous forty years, will reach new milestones and introduce new, exciting design in collaboration with all the talented Nordic as well as international designers with whom we work closely.

Please welcome it.

Sincerely,  
Vibeke and Jesper Panduro

# PILLOWS & CUSHIONS

We have updated our **Barriere®** range with new fabrics. **Barriere® Panama** and **Barriere® Liso** are the names of the two new Oeko-Tex® textiles with improved technical properties. Both textiles are woven in 100% dyed acrylic fibre, have increased UV resistance and are even more hard-wearing than our previous versions.
